

EXPECTS SHARE OF BUSINESS

Annual Report of Illinois Central is Compiled by Directors.

MENTION OF OMAHA EXTENSION MADE

First Authentic Information from Official Source Regarding Expectations of Omaha When It Reaches This City.

The annual report of the Illinois Central railroad for the year ending June 30, 1898, has been compiled by the directors and submitted to the stockholders, by whom it will be officially examined at their annual meeting, to be held in Chicago on the 27th inst.

The report will be of peculiar interest to railroad men in this vicinity at the present time, because of the active operations that company is making toward extending its line to Omaha.

It shows that the average number of miles of railroad operated during the period covered by the report has been 5,711, a decrease of 111 miles, because of the surrender of the lease on the Yazoo branch on June 30, 1898.

The gross receipts from traffic were \$28,114,639.89, an increase of 2.92 per cent over the previous year. The expenses of operation and taxes were \$19,201.90, an increase of 9.99 per cent. The most interesting feature of the report is the immense sum spent for the betterment of the road as compared with the previous year.

Regarding the extension of the Illinois Central to this city the report says: "The Fort Dodge & Omaha Railroad company is now building and is expected to complete during the current calendar year a railroad from Tara station, near Fort Dodge, Ia., to Council Bluffs, Ia.—130 miles. The grades on this line nowhere exceed twenty-six feet to the mile and the curves are very light. It is confidently expected that, through its construction and control, we will secure a fair share of the business of Omaha, Neb., and of the transcontinental and other railroads centering in and passing through that city. Omaha and Council Bluffs taken together have a population not far from 200,000."

It is of passing note that the term of Edward H. Harriman, one of the directors of the Illinois Central, expires at the annual meeting this month, although it is a safe presumption that he will be re-elected. Just how far Mr. Harriman's resignation is one of the leading stockholders in both the Union Pacific and the Illinois Central and holds no interest in the Northwestern.

PACKING RATE WAR BEGINS

Chicago Roads Will Back the Kansas City-Omaha Differential in a Few Days.

CHICAGO, Sept. 18.—Roads running out of Chicago have become involved in the rate war on packing house products, which has been in effect for some time from Omaha and Kansas City, and today reductions of from 6 to 10 cents per 100 pounds from Chicago on packing house products were announced to go into effect September 20.

A meeting of the transmissouri lines was held today in an endeavor to effect a restoration of the rates, which are being badly cut from the western points. It was stated after the meeting that no satisfactory arrangement had been agreed upon, and the announcement of the cut in rates from Chicago was made soon after.

The rate war, which is practically between the Chicago, Burlington & Quincy and the Kansas City, Fort Scott & Memphis roads over the Kansas City-Omaha line, is now decidedly interesting. Rates on packing house products from Omaha and Kansas City to Ohio river points have now reached rock bottom and another reduction by either of the lines would almost give the packers at Missouri river points an opportunity to ship their products to the southeast free of charge.

MISSOURI PACIFIC BOYS HONORED

Miss Helen Gould Bestows Scholarships Upon Six Western Youths.

It will be remembered that some time ago the announcement was made that competitive examinations would be held in the west and examinations at points along the Missouri Pacific railway for vacant scholarships in the Undergraduate College of Applied Science of the New York university, established in 1885 by Miss Helen Gould. These examinations have been held in some twenty cities and towns covered by the Missouri Pacific and the scholarships have been awarded as follows: Western, Guy Mahie, Eldorado, Kan.; D. P. Barnett, Kansas City; Ellis Fink, Winfield, Kan.; Southwestern, P. B. Heartill, Marshall, Tex.; A. L. Wilcox, El Paso, Tex.; J. N. Clements, Fort Worth, Tex. According to the terms of the contest Messrs. Mahie and Heartill are given the four years' scholarships, each yielding \$300 annually. The other four candidates are each assigned by special gift a scholarship of \$300 a year for two years.

New Burlington Time Card

Because of frequent delays at Denver occasioned by the Rio Grande railroad being late in its connection the Burlington has decided to change the time on passenger train No. 2. The train will leave Denver at 10:30 p. m. instead of 9:50, as at the present time. It will reach Omaha at the same time as now, 3:55 p. m. While the time between Denver and Omaha will be shortened, it will be correspondingly lengthened between this city and Chicago. Leaving for the east, No. 2 will pull out from here after the new card becomes effective as at present, 5:05 in the afternoon, but instead of reaching Chicago 7:47 a. m., it will arrive there at 8:20 the morning after leaving here.

Reopen Railroad Stations

The Burlington railroad has just reopened two small stations which were closed during the hard times of 1894-5. One is at Thompson, a small Nebraska station between Wynora and Red Cloud; the other Mystic, a station in the Black Hills between Deadwood and Edgemont. Agents in charge are Frank G. Rainey at Thompson and C. F. Triplett at Mystic.

Libel Case Continued. The case of criminal libel brought by Allyn Rusk against Edward Rosewater, and Victor Rosewater was set for hearing in the police court yesterday morning, but upon representation by attorney J. H. Miller that he was not ready to proceed it was put over until next Tuesday.

IT'S UP TO THE COUNCIL NOW

Public Buildings May Be Illuminated During Week of Fall Festivities.

The question of illuminating the city hall during the week of the Ak-Sar-Ben parade is up to the city council, and if that body makes an appropriation sufficient to pay for the lights and wiring many lamps will shine upon the domes and turrets each night during the carnival week. The county commissioners have ordered that the county building be illuminated and the work of placing the wires and the lights will begin at once.

City Electrician Schurz has had a conference with the officials of the exposition. They have agreed to turn their arc lights off during the nights of the parades, which will give sufficient current to illuminate the city hall and the court house, so that now nothing remains to prevent the carrying out of the original plans if the council will appropriate the money necessary to be expended in wiring the city hall and erecting the grand stand and platform on the Farnham street side of the building.

Should the money be ordered expended, the city officials will immediately begin perfecting their plans for receiving King Ak-Sar-Ben V at the Farnham street entrance of the building when he makes his triumphal entrance into the city.

WHO SAID LAGER BEER?

and what did they mean? They must have referred to Krug Cabinet beer—that's the only "lager" beer that's recognized in this part of the country—but everybody don't know what "lager" means, notwithstanding nearly everybody uses it. Krug Cabinet lager beer either as a tonic or beverage—it might be well to look upon the word lager—there might be a purse offered some day to the person who could get to 1007 Jackson street, Fred Krug Brewing Co.'s office, with the first correct definition and then you would know—that's important. All the products of this firm are "lager." Remember that after you look it up.
